

Press release from Emotra AB (publ)

Göteborg, November 15, 2021

Daniel Rudeklint appointed CFO of Emotra AB

Emotra AB has employed Daniel Rudeklint as its CFO. Daniel brings his experience from auditing and internal auditing in a global environment to the company. With this new employee, the company is taking the step of this duty being fulfilled by a consultant to having a permanently employed financial manager.

Daniel Rudeklint has a master's degree in business, with a specialisation in financial control and accounting. Daniel has previously worked as an authorised public accountant at EY Sweden AB (previously Ernst & Young Sweden AB) Sweden AB) and comes to us from Sida, the Swedish International Development Cooperation Agency, where he was responsible for reviewing and improving the authority's processes.

In connection with our acquisition of NeuraMetrix, the company has seen the need to transition from a consultant CFO to a permanently employed financial manager. This employment should be viewed as a step in the company's new strategic development, where an important part of Daniel's work will be to support the merged company's future operations.

"I am really looking forward to working with the team at NeuraMetrix. The company owns technologies and solutions to problems that afflict a lot of people and their immediate families. Their work feels relevant and important, which I find stimulating, and I am excited about being a part of their growth into a large actor in the mental health sector," says Daniel Rudeklint.

Daniel assumes the role as CFO today, November 15, 2021.
